IV Cost.

V List of Rooms, etc.

A Basic accommodation.

B Additional accommodation.

VI Schedule of Equipment.

Appendix: Departmental Cost Summary.

I. Scope

This Equipment Note gives guidance on the equipment requirements for dining rooms for hospital staff. It is intended to be read in conjunction with Hospital Building Note No. 11, which relates to the design and planning of dining rooms for hospital staff at all kinds of hospitals. It does not cover the equipping of hospital kitchens, for which reference should be made to Hospital Equipment Note No. 10.

II. General Considerations on the Use of Equipment Notes

Equipment Note No. 1 (Equipping a hospital building) provides an introduction to the series of departmental Equipment Notes, advice on their application and guidance on the task of preparing equipment schedules for individual building projects. This departmental Equipment Note is intended to be used within the general planning framework set out in Equipment Note No. 1 and in the manner described therein.

The following method of classifying equipment, which is explained in more detail in Hospital Equipment Note No. 1, is used throughout this Note:

The term "equipment" covers all items necessary for the functioning of the dining room and includes both non-technical (e.g. furniture) and technical equipment. Short-term consumable supplies such as fuel, stationery, food, drugs and dressings are not included.

Equipment is classified into three groups:

Group I: items usually supplied and fixed by the contractor for the works.

Group II: items having a permanent or semi-permanent location and having a significant effect on space and/or structural requirements:

(*a*) those supplied by the hospital authority and fixed by the contractor for the works;

(*b*) those supplied by the hospital authority and put in position by them or on their instructions outside the general construction contract.

Group III: smaller items, usually storage items, supplied and put in position by the hospital authority.

III. Special Considerations in Respect of this Note

The equipment detailed in this Note is regarded as suitable for the dining rooms described in Building Note No. 11 and has been listed in room (or space) sequence conforming to the Building Note. The lists are drawn up in such a way that they are applicable to dining rooms of varying designs, within the context of the Building Note, serving 150 to 750 staff mid-day meals. Thus, whereas for many of the rooms the equipment will be standard whatever the size of the department, for other rooms the requirements are listed in columns according to the size of the hospital served. Dining room seating is based on the recommendation in the Building Note that each seat of the dining room will be used two-and-a-half times at each main meal.

Some fixed items of equipment (Group I) have already been mentioned (and costed) in the Building Note, but it has been thought useful to include them again in the Equipment Note, which represents the results of a comprehensive review of the requirements. Reference should, however, be made to the Building Note—Part V, Engineering Services—for further information on the mechanical services and electrical installation. Structural elements, floor coverings, non-specialised heating and lighting fittings and similar items which are basic to any building are not included in the Equipment Note; neither are window blinds and window curtain tracks since the requirements may vary with local circumstances.

Throughout the schedule, for the sake of uniformity, references to towel dispensers are associated with disposal bins for paper towels. Suitable adjustments will need to be made where other towels are to be used.

It is appreciated that various methods of waste disposal are employed in the hospital service. For the purpose of this Equipment Note paper sack holders for wet and dry waste are shown in all appropriate areas. No swill or waste bins have been included. Suitable adjustments will need to be made where other methods of waste disposal are in use.

IV. Cost

Guidance on the cost of equipping a staff dining room to the standard shown in this schedule is given against the list of equipment for each room. Departmental cost summaries are shown in the Appendix to the Note. In using these cost figures, the considerations referred to in Section IV of Equipment Note No. 1 should be borne in mind.

The cost figures in this schedule and in the Appendix are related only to Group II and Group III equipment. As a matter of convenience, Group I items of a specialised nature are listed in the room schedules, but these have already been taken into account in the cost allowance for construction (including engineering) in the appropriate Cost Note in Appendix E to Hospital Building Note No. 2.

V. List of Rooms, etc.

A. Basic accommodation	Page reference
(*a*) Dining area	
(i) Draught lobby	3
(ii) Dining room	3

A. Basic Accommodation

DEPARTMENTAL ITEMS

Items have, wherever possible, been shown in the lists in the rooms where they will normally be found. The linen required will depend on local planning and the use of disposables may mean that no table linen will be used. The following is intended to give guidance on requirements, though the items will probably be supplied from the Central Linen service.

	Number of staff mid-day meals provided in dining area							*Notes*
	150	200	250	375	500	625	750	
Basic List								
Group I:								
Directional signs, door labelling/numbering	As reqd.	As reqd.	As reqd.	As reqd.	As reqd.	As reqd.	As reqd.	
Incinerators for toilets	If reqd.	If reqd.	If reqd.	If reqd.	If reqd.	If reqd.	If reqd.

Appendix
Dining Rooms

DEPARTMENTAL COST SUMMARY

(To be read in conjunction with the explanatory notes in Section IV of this Equipment Note and Section IV of Hospital Equipment Note No. 1)

The room cost guide figures for basic equipment (Groups II and III), applied to standard schedules of basic accommodation for departments of various sizes, suggest departmental equipment cost totals of the following order:

Number of staff mid-day meals						
150	200	250	375	500	625	750
£1,350	£1,650	£2,000	£2,800	£3,600	£4,400	£5,100

In these totals no account is taken of the following:

(*a*) Equipment required for basic accommodation, additional to the basic list, some guidance on which is given under the appropriate rooms.

(*b*) Equipment required in " additional accommodation ", cost guides for which are shown on the appropriate pages as for basic accommodation.
